EDUCATION

Parul University (Parul Institute of Technology) GPA - 7.20/10

BTech, Computer Science and Technologies

2022 – 2026

Gujarat, India

EXPERIENCE

Navik Labs

UI-UX & Frontend Developer (intern)

Feb 2026 – Current

India

- Delivered 8+ client-facing web applications using React.js, Next.js, TypeScript, and Tailwind CSS, transforming product requirements into scalable frontend solutions.
- Implemented 10+ user workflows for Dental.ai, including authentication, appointment scheduling, AI-assisted dental scanning, and patient management experiences across web and mobile platforms.
- Architected a library of 15+ modular interface elements and design patterns, accelerating feature delivery while improving maintainability across multiple products.
- Conducted research and structured 10+ storytelling modules for the Radhika Farms platform, independently creating a responsive Next.js application optimized for mobile, tablet, and desktop environments.
- Collaborated in feature planning, testing, and deployment activities, contributing to the delivery of scalable software solutions while adhering to modern development best practices.

PROJECTS

Evently – Smart Event Management System

- Crafted a responsive event management platform featuring ticket booking, attendance tracking, and organizer dashboards using React.js.
- Visualized registration, attendance, and engagement metrics through interactive analytics dashboards, enabling real-time event monitoring.
- Established a shared component system and frontend standards that reduced implementation effort by 40% while enhancing cross-device usability.

Autonomous AI – UI Builder & Prototyping Platform

- Reduced UI prototyping time by 90%+ by creating an AI-powered platform that converts natural language prompts into production-ready React and Tailwind CSS interfaces.
- Orchestrated a LangGraph-based multi-agent workflow integrating OpenAI and Gemini models for automated planning, generation, and refinement of user interfaces.
- Streamlined design iteration cycles by 80% through real-time code generation, live previews, and conversational editing capabilities.

SKILLS

Programming Languages: Python, JavaScript, TypeScript

Frontend Development: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend & APIs: Node.js, FastAPI, REST APIs

Databases: SQL, MongoDB, PostgreSQL, MySQL, Supabase.

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), Database Management Systems (DBMS), Responsive Design.

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (AI-900), Anthropic – AI Fluency: Framework Foundations, Claude 101

LEADERSHIP & ACTIVITIES

- Showcased and demonstrated the Evently – Blockchain-Based Smart Event Management System in Tech-Expo 2026, under PIERC.
